Do you have questions or want to know more about our TiGER FiRE's or the impressive collection of accessories? Authorized TiGER FiRE dealers have all the expertise to advise you properly. You can find your nearest dealer via the website www.tigerfire.eu.

The story behind TIGER FIRE

The feeling of freedom that only the outdoors can give you. That is what we look for every time we gather around the wood fire with our family and friends. We feel completely at home around the dancing flames while warmth and wonderful smells make us forget time. We are happy to share this with everyone.

TIGER FIRE, that is purely Belgian. It is a family business where we have been working with dedication on a daily basis since the beginning of 2016 to build a strong quality brand. Delivering quality to our customers is our priority. This is one of the reasons why our products are built by hand. In recent years TIGER FIRE has grown into

a renowned brand in the world of barbecues, with an extensive European dealer network around it.

The simple principle of centrally starting the wood fire in a pyramid shape allows you to quickly enjoy delicious dishes and the blissful warmth of wood. The large cooking surface of the appliance creates different temperature zones: close to the fire it is glowing hot and at the outside edge your dish can be cooked gently at a lower temperature. After baking, use the TIGER FIRE as an atmospheric patio fireplace for cosy and warm evenings.

Upgrade your appliance and create your own unforgettable experience with a wide range of accessories: with a grill grate, wok set, serving plank, leather apron or even a pizza oven. With its beautiful design, the TIGER FIRE will make your garden shine! Enjoy a delicious barbecue all year round, surrounded by the people you love.

Let yourself be pampered by the world of outdoor cooking.

The production

It is said quite regularly

"A craftsman is only as good as his machines".

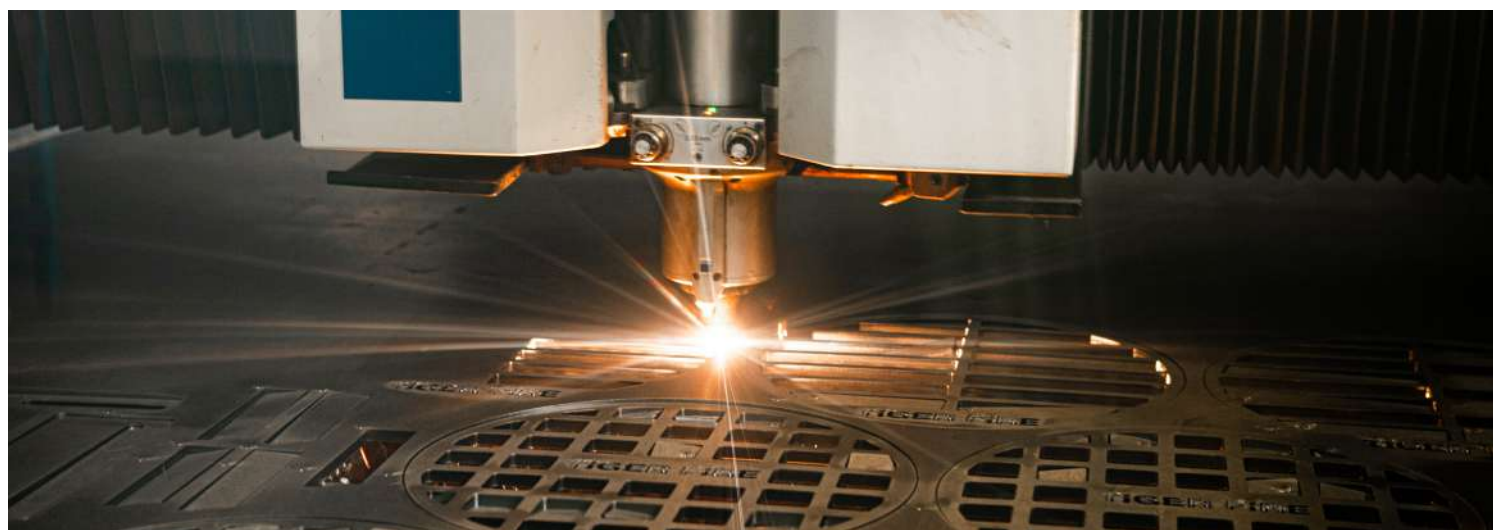

At TIGER FIRE we can therefore say that we have very good craftsmen. Our production has the most modern machines for working steel and Corten steel.

Man and machine go hand in hand every day to produce the quality for which we have guaranteed since 2016.

We are therefore proud to be Made in Belgium!

TIGER FIRE

TIGER FIRE Braai

Inspired by the South African tradition, the TIGER FIRE Braai was developed.

A beautiful work of art that at the same time creates atmosphere and delicious food.

Make your own charcoal by lighting wood in the charcoal maker and then slowly grill tasty pieces of meat and vegetables.

The TIGER FIRE Braai has height-adjustable grids for preparing food at different temperatures. The charcoal maker can also be easily positioned to the left, right or centre. This way you can always configure the braai as you wish.

TIGER FIRE

Raised grill grate HONEY

This sturdy grid has the appearance of a honeycomb and is manufactured from the same steel as our baking plates. It makes it possible to grill on top of the open fire. With its unique design, consisting of hexagonal cells, you create wonderful grill marks in your meat!

Raised grill grate mini

Grilling perfect dishes over your wood fire. This sturdy grid creates beautiful and refined grill marks and fits the TIGER FIRE 70 models.

Serving plank

Create a handy workspace in the immediate vicinity of your barbecue. Simply hook the serving plank over the baking plate and get to work. Just like the wooden chopping board, this plank is unique in terms of shape and drawing.

Chopping board

With this solid chopping board from ash wood you will feel like a real professional. Each chopping board is unique in shape and design, which gives this accessory a lot of charm and character. A must have for every barbecue lover!

Leather Apron

Protect your clothes while cooking with this sturdy leather apron from TIGER FIRE. With this apron you will definitely steal the show on your next barbecue!

Salmon smoke plank

Smoke a piece of salmon in the age-old Finnish way using the salmon smoke plank. Simply hook the salmon plank over the baking plate and get started. Spice according to your preference and enjoy a deliciously pure and authentic palette of flavours.

Saté grill

Preparing a deliciously fresh saté is child's play with the TIGER FIRE saté grill. With the supplied skewers you can easily make your own saté with meat, fish and/or vegetables. Place the saté grill over the fire and put the skewers in the holders. Let it cook slowly and simply turn the skewers. The result: a fantastic saté with a smoky taste and a crispy crust!

Dutch oven set

The Dutch Oven is a cast iron cooking pot that has its origins in the Netherlands. Popular in America, but something that has been forgotten by us. Baking, roasting, stewing, grilling and even deep-frying: the Dutch Oven can do it all. A versatile pan with which you can experimenting for hours. With the available set-up you can get started above the fire and there is still enough room to add some wood blocks while cooking.

Wok set

Stir-frying becomes a pleasure with our TIGER FIRE wok set. Endless possibilities to put beautiful meals on the table: from mussels to delicious casseroles. With the included set-up you can easily wok over the fire and there is still plenty of room to add some wood blocks while cooking.

Pizza oven

Get the Italian kitchen in your backyard with the pizza oven from TIGER FIRE. Top your pizza as you wish and prepare a delicious and crispy one in no time. Buon appetito!

Chicken Rotisserie

Are you a true Burgundian who loves a delicious chicken on a spit? Then this accessory should definitely not be missing from your TIGER FIRE collection. Place the Chicken Rotisserie on the baking plate and get to work.

The chicken cooks perfectly over the fire, becoming nice and juicy and crispy. Finger licking delicious!

Food bumper

Momentarily not paying attention and a cherry tomato slipping into the fire? That is a thing of the past with the TIGER FIRE Food Bumper.

The raised ring holds back food while providing enough space to scrape the baking plate clean.

TIGER FIRE Kamado

Ovens made of stone or clay have been used by humans to cook food for thousands of years. From the finds made, it is assumed that these ovens are the origin of the modern Kamado.

In the modern Kamado, clay has been replaced by high-quality ceramic materials. Ceramics have the positive characteristic of insulating and therefore retaining the heat well. The outside of the Kamado is finished with a high-gloss ceramic glaze.

The Kamado is a very versatile barbecue. Besides grilling, you can smoke, bake and steam, but also cook low & slow and even prepare pizza.

Available in the sizes medium, large and extra large and in the colours white, green and black.

Pizza Stone

Prepare the best pizzas on your Kamado with this ceramic pizza stone.

Available for the medium, large or extra large version.

Charcoal Basket

The Charcoal Basket is not only useful when cleaning the Kamado, this accessory also ensures better airflow. Ash falls through the grid so that the air supply is not blocked. This allows you to control the temperature even better and saves on coal consumption.

Available for the medium, large or extra large version.

Low & Slow Heat Deflector Set

The main function of the Heat Deflector is to create less direct heat. This accessory ensures that there is no direct contact with the heat of your charcoal. This way, your meat will cook slowly. Fats and juices cannot fall directly into the hot coals, so there is much less chance of ignition. Ideal for preparing pulled pork, spare ribs, ...

Available for the medium, large or extra large version.

Chicken on a Can Sitter

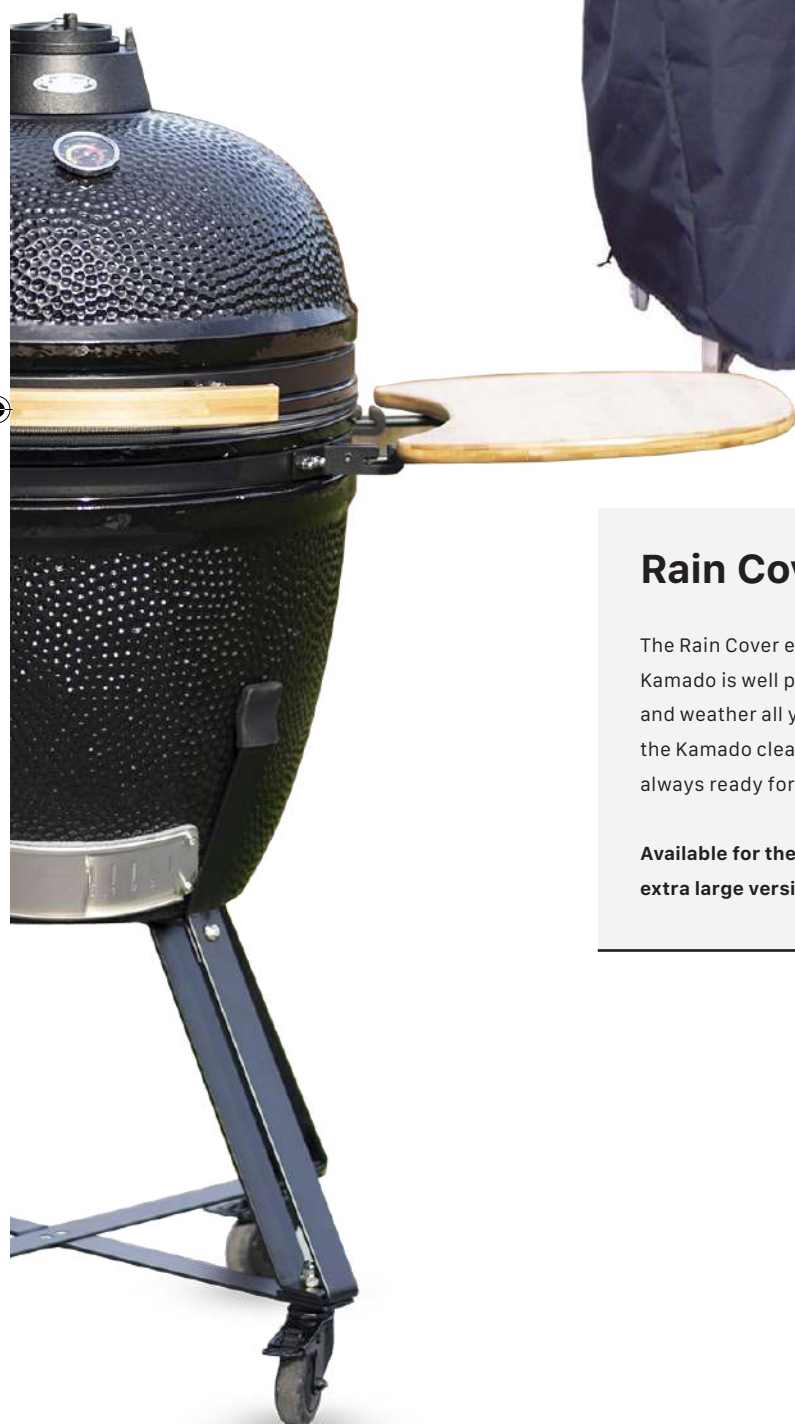

This Chicken on a Can Sitter allows you to cook a deliciously crispy and juicy chicken on your Kamado. Fill the Chicken Sitter with flavourings of your choice, such as beer, wine, coke, etc. Then place the sitter in the middle of the Kamado and cook with the lid closed. This accessory is also perfect for use in a Z GRILLS pellet grill.

Kamado Accessories

Kamado Accessories

Rain Cover

The Rain Cover ensures that your Kamado is well protected from wind and weather all year round. It keeps the Kamado clean and dry, so that it is always ready for use.

Available for the medium, large or extra large version.

Cast Iron Grill

This robust cast iron grid is the perfect accessory for your Kamado. The grid can withstand higher temperatures, holds the heat longer and better and ensures an even distribution of heat. In addition, the grill ensures perfect grill marks. Want to create a nice diamond pattern on your steak? Then turn your meat a quarter turn on the grid.

Available for the medium, large or extra large version.

Chicken Rotisserie

Who is not a fan of the delicious smell of chicken on a spit? With the Chicken Rotisserie, you can recreate that wonderful smell at home. Simply place the accessory in the Kamado and get started. Because of the ring around the spit, the Kamado remains completely closed when using this accessory. The chicken is automatically cooked on all sides to perfection.

Available for the medium, large or extra large version.

WOOD PELLET GRILL

WOOD PELLET GRILL

Z GRILLS

The story behind Z GRILLS Belgium

TIGER FIRE wants to offer a wide range of products that make outdoor living, cooking together and enjoying good food even more enjoyable. TIGER FIRE is proud to be the official distributor of Z GRILLS since 2020.

Z GRILLS is a manufacturer of pellet grills with more than 30 years of experience in the industry. It is a growing and global team of over 600 engineers, designers, craftsmen and researchers who have a tremendous passion for outdoor cooking. Their extensive experience in manufacturing pellet grills is used to create the most delicious grilled foods.

The Z GRILLS pellet grill is the combination of innovative design, high quality materials and strong prices in one product.

Z GRILLS

How the Z GRILLS works

Smart Smoke Technology

SET IT and FORGET IT!

1. Fill

Choose your favourite pellet flavour and fill the pellet hopper. The Z GRILLS automatically adds the right amount of pellets to the fire to maintain the desired temperature.

2. Set

Always start the Z GRILLS on SMOKE with the lid open. An auger at the bottom of the hopper pulls the pellets into the firebox where they come into contact with the igniter. Once the pellets are ignited, set the temperature with a simple turn of the dial.

3. Forget

The circulating fan distributes the heat evenly over the entire cooking surface, so that your food is always perfectly cooked. This means you no longer have to babysit on the grill!

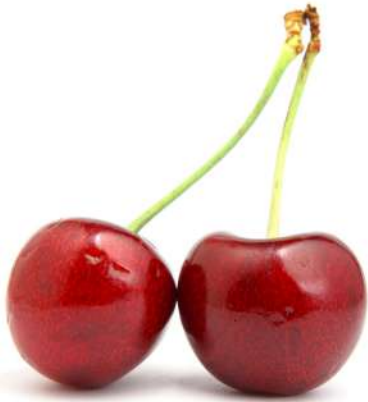

Pellet Flavours

100% PURE WOOD

Completely natural and pure pressed pellets without binders, fillers and oils.

	BEEF	CHICKEN	PORK	LAMB	SEAFOOD
					
APPEL <i>apple</i>		X	X		
KERS <i>cherry</i>	X	X	X	X	
BEUK <i>beech</i>		X	X		X
WALNOOT <i>walnut</i>			X	X	

WONDERFUL AROMAS

The pellets give a rich and natural wood flavour to all your dishes. There is a variety of four flavours to choose from.

Each type of pellet has its own characteristics and matches different ingredients. Above we would like to give you an overview of which pellet goes with which ingredients. But above all, experience for yourself and choose your own favourite combinations!

TIGER FIRE

Z GRILLS accessories

Z GRILLS Bamboo Cutting Board

The Z Grills cutting board is made of bamboo and is durable enough to withstand the most vigorous cutting operations. This natural material is also gentle on your knives and helps prevent blunting.

This cutting board catches food residues in its groove and prevents them from spilling onto your countertop.

In addition, the chopping board is easy to clean and maintain. Simply wash by hand with warm water after each use and towel dry immediately. Do not put your Z Grills bamboo cutting board in the dishwasher or let it soak in the sink!

Z GRILLS Bluetooth Thermometer

This wireless smart thermometer by Z GRILLS offers you fun and ease of use. Download the free Z GRILLS TM app from the App Store or Google Play. Connect via Bluetooth, insert the probes and get an accurate and reliable temperature display on your phone via the app.

SPECIFICATIONS

- Easy set-up with Bluetooth connection
- LCD screen with backlight
- Battery-powered design

Z GRILLS Cast Iron Grill Plate

The Z GRILLS cast-iron griddle has convenient reversible sides. The smooth side can be used for grilled sandwiches, eggs and pancakes; the ribbed side for grilling fish, steak, chicken and hamburgers. The high edges prevent oil from spilling over.

This grill is stain-resistant and easy to clean. Lightly oil the grill after each use.

Pellet Bags 10 kg

Available in 4 flavors.

Z GRILLS Hot & Fast Grill Plate

Go Hot & Fast with this Z GRILLS Hot & Fast Grill plate. Easily convert your Z GRILLS into a fully-fledged grill barbecue and serve up the most delicious steaks and hamburgers!

Available for all Z GRILLS models.
